Notes:

1. Fan Models in italics are no longer available.
2. For JH20 replacement blade, either use a J20 blade and accept 25% less airflow or use NW4K blade, trimmed to 19-1/2" along with new NW4K motor (208/230V only).
3. J24 also used a 5 paddle @ 35° blade with 6-1/4" hub (8-1/4" long paddles) but was later changed to the [4 paddle @ 45°](#) arrangement.
